Rotaplast International
3317 26th Street
San Francisco, CA 94110
United States

Dear Ladies and Gentlemen,

This is a donation of 459.00USD for District 5080's Rotaplast mission to Karaikal, India this August. My name is Milena Gramann (17) and I have been a Rotary Exchange Student in 2011/2012 in Castlegar, BC (Sunrise 2000 Club, District 5080). In August I will return to Germany to attend school for two more years. After that, I am planning on becoming an orthodontist. In the past I did two two-week long work placements at the tooth clinic of the Medical University in Hannover, Germany where I became aware that some children are born with a cleft lip/palate. Since then, helping children with cleft lip/palate has become one of my interests and during my exchange year in Canada I started a fundraiser for Rotaplast selling three dimensional Origami stars. The attached money order is the money I collected. I also made a video about the Fundraiser and Rotaplast which I already gave to Sheila Hart. When I am an orthodontist I would love to join you on Rotaplast missions.

I wish you a successful and safe trip to India in August!

Sincerely,

Milena Gramann
Rotary Youth Exchange Student
